<b>McGill Emergency Number:</b>		<b>3000</b>	

### How to reach Internal and External Locals from outside McGill:

**Internal Locals:** The 5-digit locals starting with “00” are **Internal** BME numbers and cannot be reached directly from outside McGill. To reach a 5-digit BME local, dial: **(514) 398-4400**. You will be greeted by an automated attendant and will be asked to enter the local followed by the # key. **It is important to enter the complete 5-digit number (00nnn).**

**External Locals:** The 4-digit locals are considered **External** numbers. Anyone from outside McGill can direct dial the local by using the 4 digits to complete phone number: **(514) 398-nnnn**.

**General Lab Number:** Telephone number **(514) 398-6734** is a general number that rings in ALL labs that do not have the 5-digit number starting with “00”. It is not a direct lab line. Calls to this number from outside McGill will have to be transferred to the right lab local.
